The Smart Home Fragrance Mixer

Moodo® is an innovative smart-home fragrance mixer, designed to help you create your own unique ambiance instantly, using a smartphone app or voice control.

Moodo lets you take the finest fragrances, mix and match them, seamlessly shuffle between them, innovate and invent your own signature scent.

To use your Moodo you need:

- A Moodo Device

- Moodo Fragrance Capsules

- iOS device (from iOS 10) or Android device (from Android 5)

- Access to a wireless WiFi network

- Source of electric power (unless equipped with battery)

Tech Specs

ELECTRICAL SPECIFICATIONS

Moodo comes with a power adaptor & (optional) rechargeable battery

Charger input: 100-240Vac; 50/60 Hz; 0.5A

Charger output: 12Vdc; 1.5A

Battery (optional): Li-ion rechargeable 7.4V / 2.6Ah

OPERATION CONDITIONS

Moodo app runs on both Android and iOS

The Moodo device should be operated and stored at room temperature (the device can be operated in 7 - 40°C, with a relative humidity range of 20-90% and atmospheric pressure range of 88 - 103 kPa.).

Moodo supports 2.4 GHz WiFi network only

WARNINGS

During operation avoid contact of the device with water.

Do not locate the device near water splashes.

For external use only! Do not apply in proximity to the face.

Do not dismantle the device.

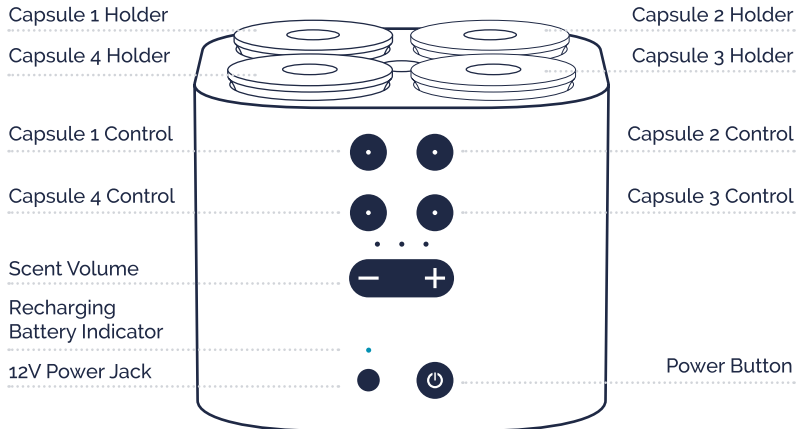

No modification of the equipment is allowed.

Do not use the device charger if the charger is damaged.

Do not use a different charger than the one provided with the device.

Do not use any detergents, organic solvents or chemicals for cleaning the device.

Also supplied in the box:
100-240V power adapter suitable for use with electric outlet

Manual Control

- Insert chosen Moodo scent capsules into the capsule holders.
- If Moodo's power button is off - press it and wait for the blue light to stop blinking.
- To control the scent capsule intensity – press the selected capsule control button (to make sure its LED is on) and then press the scent volume to reach the preferred intensity.
- To turn the scent capsule volume off – press the capsule's control button (make sure its LED turns off)
- To switch your Moodo device into pairing mode (access point), press and hold the "Capsule 1 Control" and "+" buttons simultaneously until the power LED blinks and becomes steady.

Moodo Setup Process

1

Download the app:
Moodo – The Smart Home Fragrance Mixer

2

After signing up select "add new" in the app dashboard.
Follow the in-app installation instructions
